

PHATIZWE TECH SOLUTIONS

Where technology meets excellence

CORPORATE PROFILE

100% Black Female-Owned Enterprise • Level 1 B-BBEE Contributor
South Africa • www.phatizwetech.co.za

COMPANY OVERVIEW

Phatizwe Tech Solutions is a professional, 100% Black Female-Owned technology services provider based in South Africa. We design, implement, and manage modern IT infrastructure for growing businesses. Our focus is on delivering high-performance, secure, and scalable digital systems that enable our clients to streamline operations and focus strictly on their core business goals.

As a Level 1 B-BBEE contributor, we are dedicated to driving transformation within South Africa's ICT sector. We bridge the gap between advanced technology and physical execution, ensuring that our clients' networks, data, and systems are continually optimized for performance, security, and enterprise growth.

STRATEGIC PILLARS

Our Vision

To build the primary digital foundation for growing enterprises across South Africa, driving operational efficiency and enabling seamless business scalability through superior technical execution.

Our Mission

To deliver secure, reliable, and cutting-edge technology infrastructure that bridges the gap between complex digital systems and everyday business operations, giving our clients a reliable framework to grow without interruption.

CORE CORPORATE VALUES

01

PRECISION

We architect systems with absolute attention to detail, ensuring zero structural gaps.

02

INTEGRITY

Transparent consulting, proposing only systems that genuinely benefit your scale.

03

RESILIENCE

Proactive monitoring to detect and resolve errors before they impact operations.

SERVICES PORTFOLIO

Our core service offerings cover the entire lifecycle of enterprise technology systems, ensuring your organization remains secure, efficient, and fully connected.

1. Managed IT & Infrastructure

- Remote & on-site technical helpdesk support
- Server design, deployment, and configuration
- Workstation and operating system deployment
- Hardware lifecycle and asset management

3. Networks & Connectivity

- High-speed fiber connectivity & backup lines
- Business VoIP & unified communications
- Structured network cabling & smart Wi-Fi
- Secure corporate VPNs for remote teams

2. Cybersecurity & Protection

- Network firewall config & perimeter security
- Endpoint security (next-gen antivirus, MFA)
- Scheduled secure off-site cloud backups
- Disaster recovery planning and execution

4. Cloud Services & Migration

- Microsoft 365 & Google Workspace migrations
- Secure tenant administration & access controls
- Cloud server hosting & application virtualization
- Continuous data synchronization & retention

OPERATIONAL METHODOLOGY

Phase 1: Assess

Audit of legacy networks to uncover security threats and latency risks.

Phase 3: Implement

Strict compliance deployment with migrations executed off-hours.

Phase 2: Design

Custom digital architecture matching your current and future scaling needs.

Phase 4: Manage

Continuous remote monitoring and proactive security optimizations.

STRATEGIC TECHNOLOGY PARTNERS

We collaborate with world-leading technology brands to engineer resilient, compliant enterprise systems for our clients:

Microsoft Partner
Enterprise cloud architecture, Azure hosting, and Microsoft 365 environments.

Fortinet
Industry-leading network firewalls, secure SD-WAN, and zero-trust perimeter defense.

Veeam
Enterprise data protection, high-availability backups, and disaster recovery.

Thales
Advanced access security, multi-factor authentication (MFA), and data encryption.

Adobe Authorized
Digital document cloud, secure digital signatures, and specialized software deployment.
